1. The website at a glance

The website has two parts:

- **The public website** – what church members and visitors see. Anyone can open it on a phone or computer.
- **The admin panel** – a private area where authorised church staff change everything on the website: text, photos, the logo, service times, sermons, events, live stream links and giving details. No technical knowledge is needed. Changes appear on the website immediately.

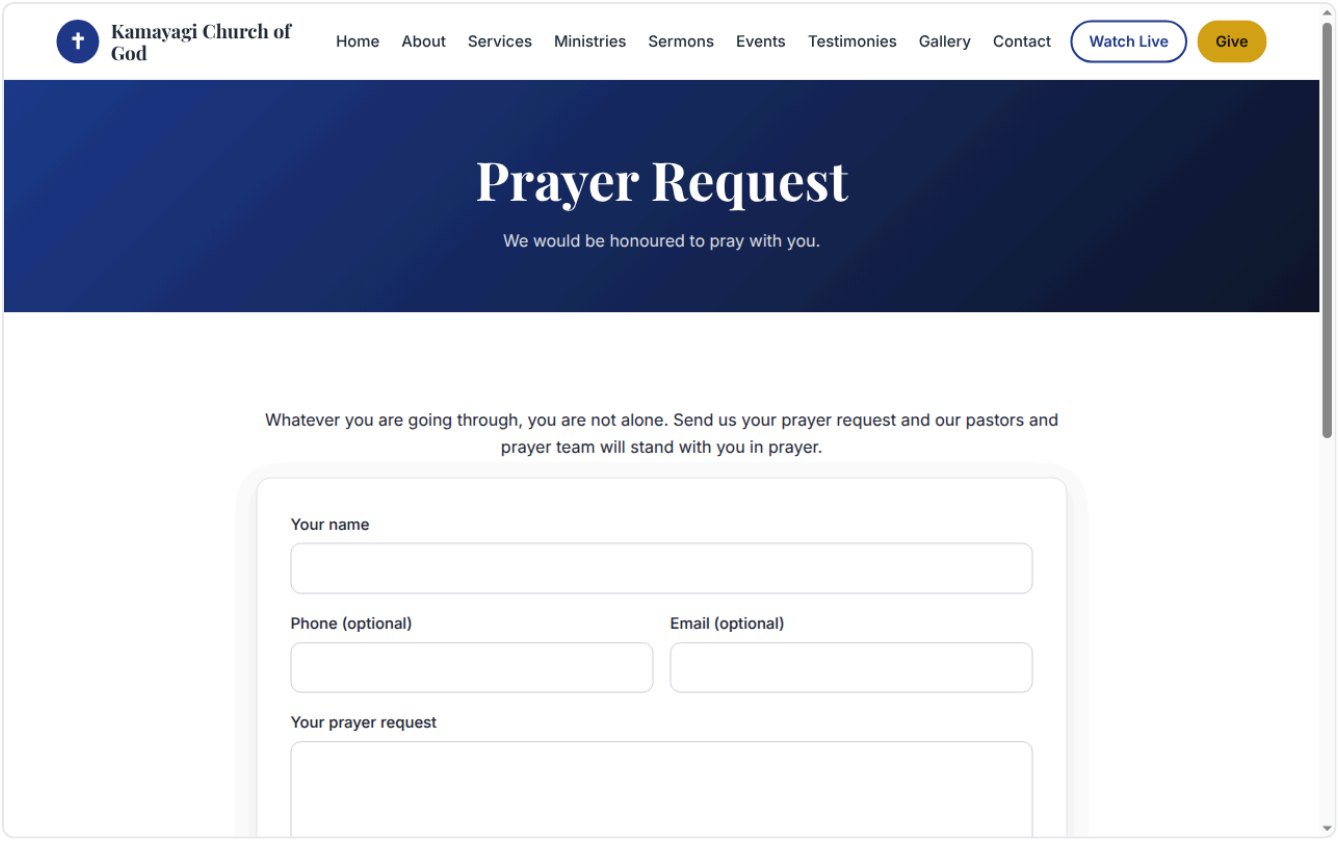

The home page

2. Pages for visitors

Page	What visitors can do
Home	Welcome message, banner photo, Bible verse, upcoming services and events, featured testimonies.
About	Church history, mission, vision, beliefs, the pastor and church leaders.
Services	Weekly service times and descriptions.
Ministries	Youth, women, men, children and other ministries, with leaders and meeting times.
Sermons	Past sermons with notes, scripture, and video or audio links.
Events	Upcoming church events with dates, times, place and posters.
Testimonies	Read testimonies and **send their own** (it shows only after an admin approves it).
Gallery	Church photos, grouped in albums.
Watch Live	Watch the service live on YouTube or Facebook directly on the website.
Give	M-Pesa Paybill / Till and bank details for tithes and offerings, with tap-to-copy numbers.
Contact	Phone, email, WhatsApp, office hours, map, and a contact form.
Prayer Request	Send a prayer request (linked in the footer and on the Contact page). They can ask to keep it private or ask for a call.

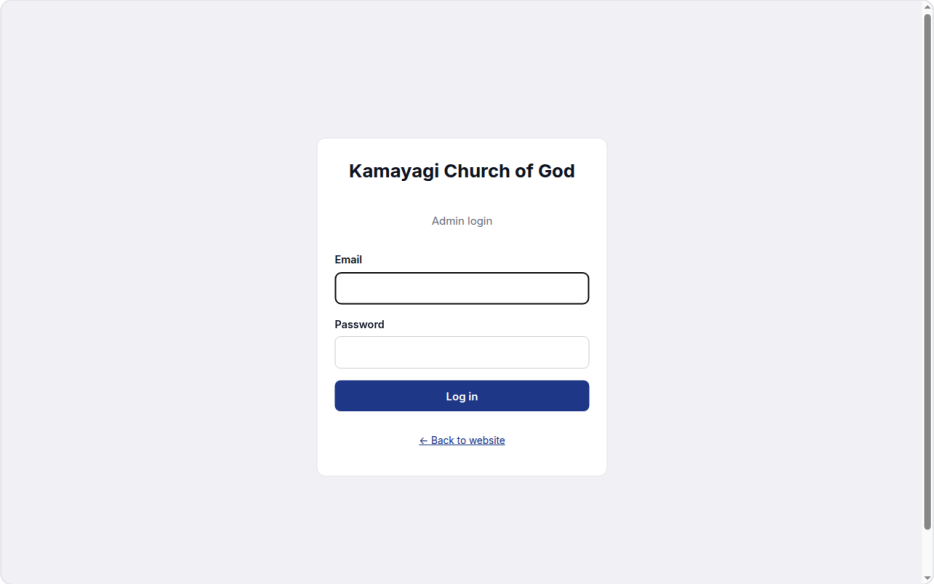

A green WhatsApp button appears on every page once a WhatsApp number is set. When the church is live, a red “We are LIVE now” banner appears at the top of every page.

The Prayer Request page

3. Logging in to the admin panel

1. Open **https://kamayagi-church-of-god.onrender.com/admin** (or click **Admin** at the bottom of any page).
2. Enter your email and password, then click **Log in**.
3. To finish, click **Log out** at the bottom of the left menu.

The admin login page

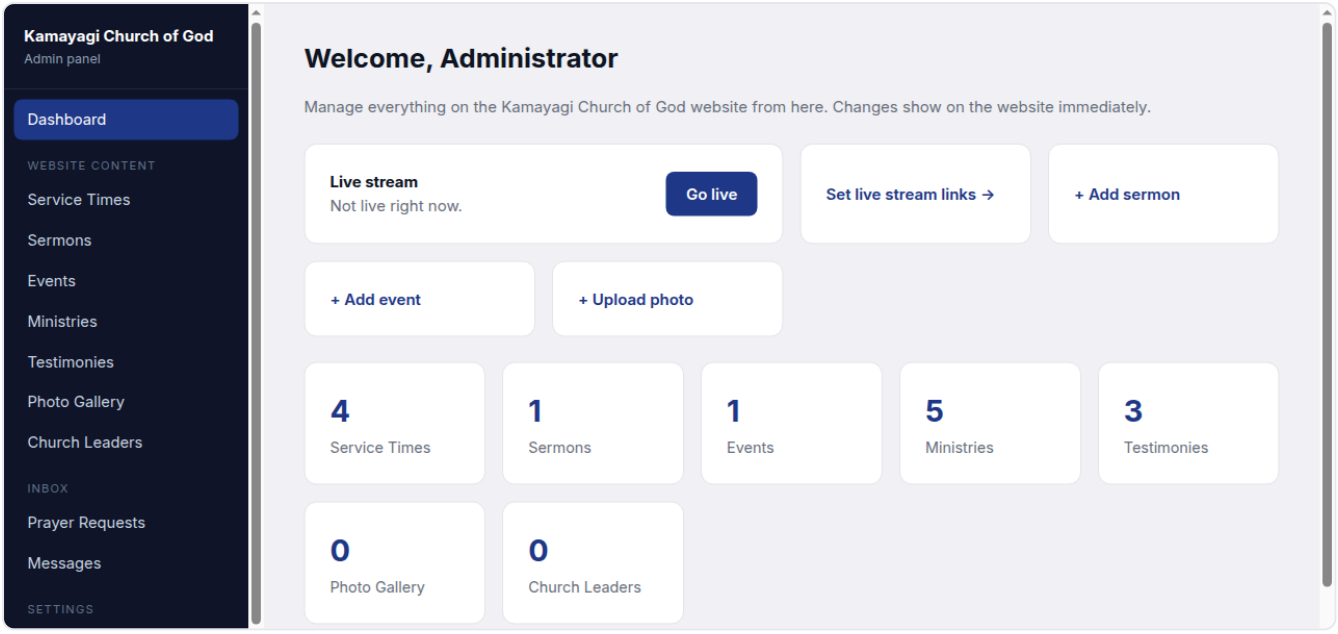

> Each admin has their own login. Ask the super admin to create one for you. Never share your password.

4. The Dashboard

After logging in you see the Dashboard. It has:

- A **Go live / End live** button for the live banner.
- Quick buttons: add a sermon, add an event, upload a photo.
- Counts of everything on the website, and the latest prayer requests and messages.

The **left menu** takes you to every section. A red number next to an item (e.g. Prayer Requests) shows how many new items are waiting. On a phone, tap the ☰ button to open the menu.

The Dashboard

5. Updating website content

Under **Website content** in the left menu you manage:

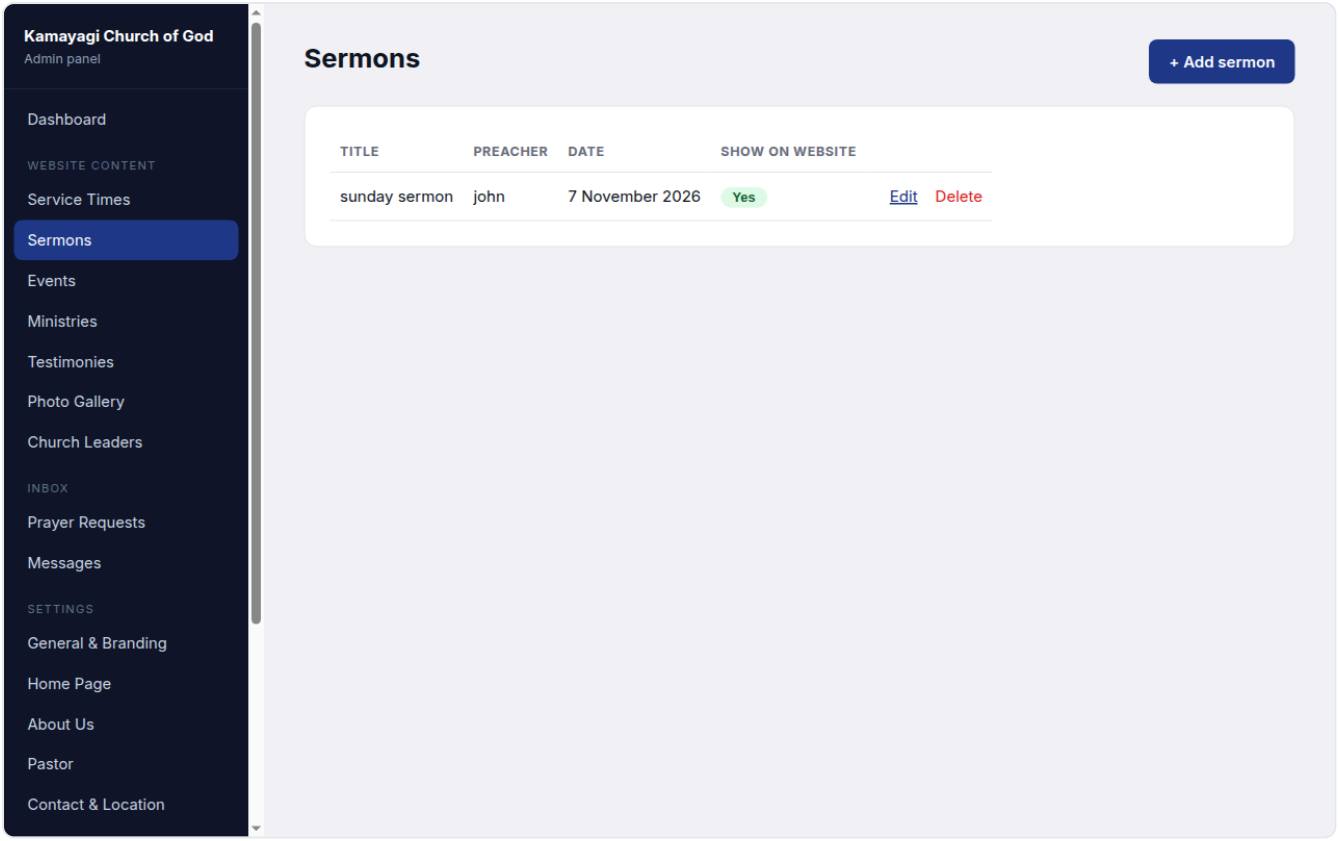

Section	What it controls
Service Times	Service name, day, start/end time, description.
Sermons	Title, preacher, date, scripture, notes, YouTube/Facebook video link, audio link, cover image.
Events	Title, dates, time, location, description, poster.
Ministries	Ministry name, leader, meeting time, description, photo.
Testimonies	Visitor stories (see section 6).
Photo Gallery	Photos with caption and album name (e.g. “Youth Camp”).
Church Leaders	Name, role, short bio, photo (shown on the About page).

To add something

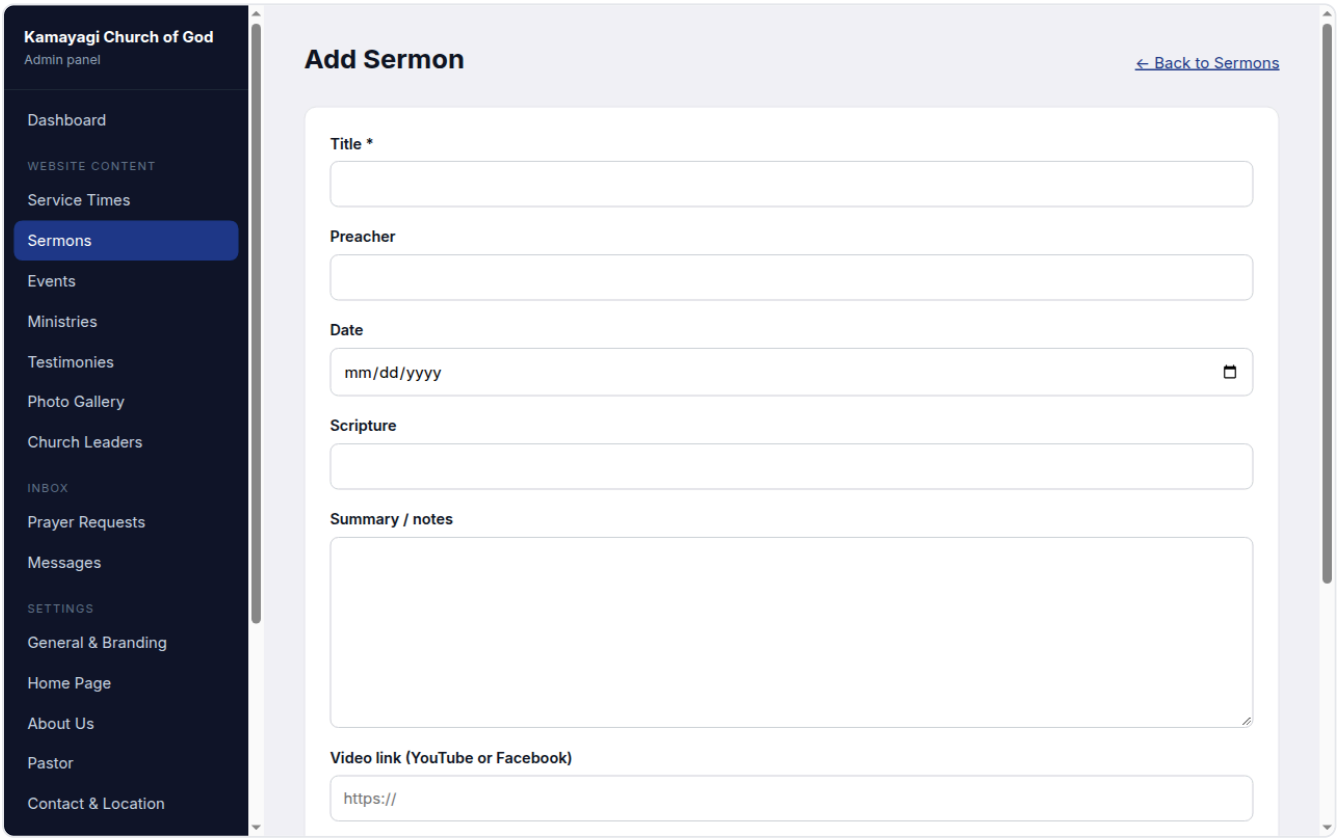

1. Click the section in the left menu (e.g. **Sermons**).
2. Click the **+ Add** button at the top (e.g. **+ Add sermon**).
3. Fill in the form, choose a photo if needed, and click **Save**.

To change or remove something

1. Open the section and click **Edit** next to the item, change it and click **Save**.
2. Or click **Delete** and confirm.

A content list (Sermons)

Adding a sermon

> **Show on website**: untick it to hide a sermon or event without deleting it. **Display order**: lower numbers show first.
> **Photos** are resized automatically – you can upload straight from your phone.

6. Testimonies

1. When a visitor sends a testimony from the website, it waits for approval and a red number appears next to **Testimonies**.
2. Open **Testimonies**, click **Edit** on the new one and read it. You may correct spelling.
3. Tick **Approved (show on website)** and click **Save**. Tick **Feature on home page** to show it on the home page.
4. Delete testimonies that are not suitable.

Admins can also type testimonies themselves using the **+ Add** button.

7. Prayer Requests and Messages

Both are private – visitors cannot see them, and only admins who have been given access can open them.

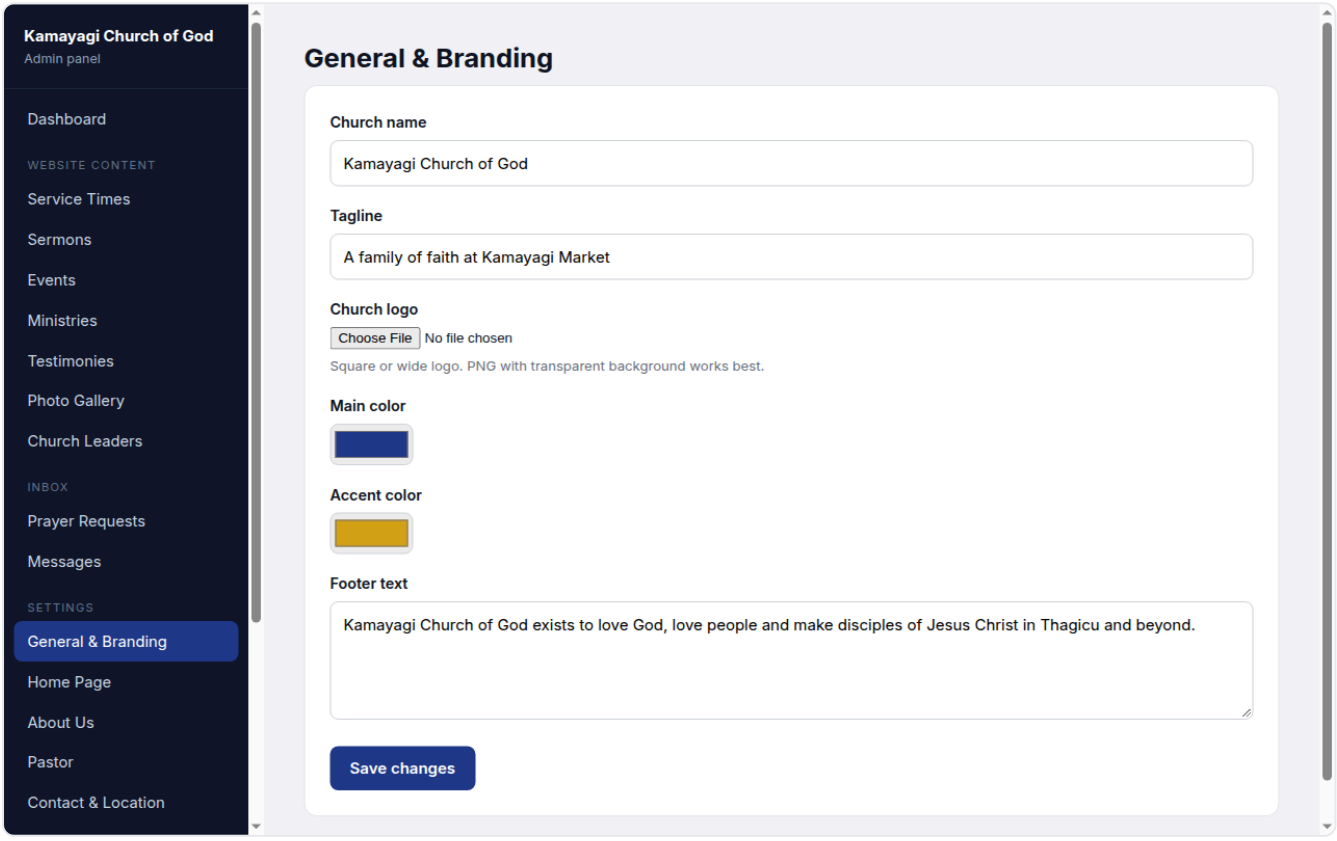

- **Prayer Requests**: requests from the Prayer Request page (and Contact forms with the subject “Prayer request”). A **Private** label means the person asked that only pastors see it. **Wants a call** means they would like to be contacted; their phone/email is shown.
- Open a request to read it, then click **Mark as prayed for**. Delete it when no longer needed.
- **Messages**: general messages from the Contact page. Reply using the phone or email the person gave.

> Please treat prayer requests as confidential. Do not share them outside the pastoral / prayer team.

8. Settings

Under **Settings** in the left menu, each section is a simple form. Change what you need and click **Save changes**.

Settings section	What you can change
General & Branding	Church name, tagline, **logo**, main and accent colours, footer text.
Home Page	Main heading, sub heading, banner photo, welcome text, featured Bible verse.
About Us	Introduction, photo, history, mission, vision, beliefs (one per line).
Pastor	Pastor's name, title, photo and welcome message.
Contact & Location	Address, phone, WhatsApp, email, office hours, prayer page text, Google Maps location.
Giving / Offering	Giving message and verse, M-Pesa Paybill and account, Till number, bank details.
Live Streaming	Live banner on/off, schedule, YouTube and Facebook live links, other platform link.
Social Media	Facebook, YouTube, Instagram, TikTok and X links (shown as icons in the footer).

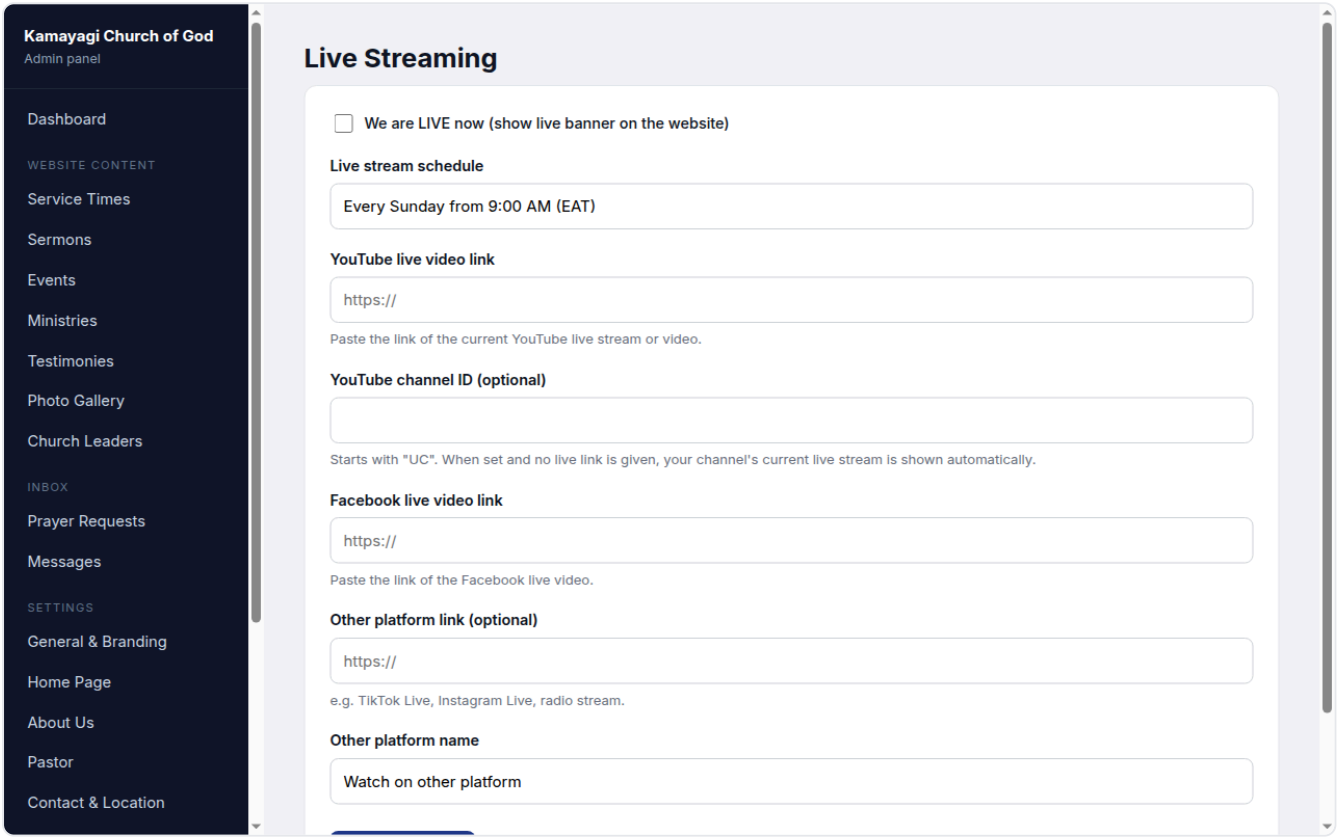

Settings – General & Branding

> Leave a field empty to hide it from the website (for example, the Till number or bank details if not used).

9. Going live on YouTube / Facebook

1. Start the live stream on YouTube or Facebook as usual.
2. Copy the link of the live video.
3. In the admin panel open **Settings → Live Streaming**, paste it into **YouTube live video link** or **Facebook live video link**, and click **Save changes**.
4. On the Dashboard click **Go live**. A red “We are LIVE now” banner appears on every page and visitors can watch on the **Watch Live** page.
5. When the service ends click **End live**. You can leave the link so people can watch the recording.

> If you add your **YouTube channel ID** (it starts with “UC”) and leave the live link empty, the website shows your channel’s current live stream automatically.

Settings – Live Streaming

10. Admins and access levels

There are two kinds of admin:

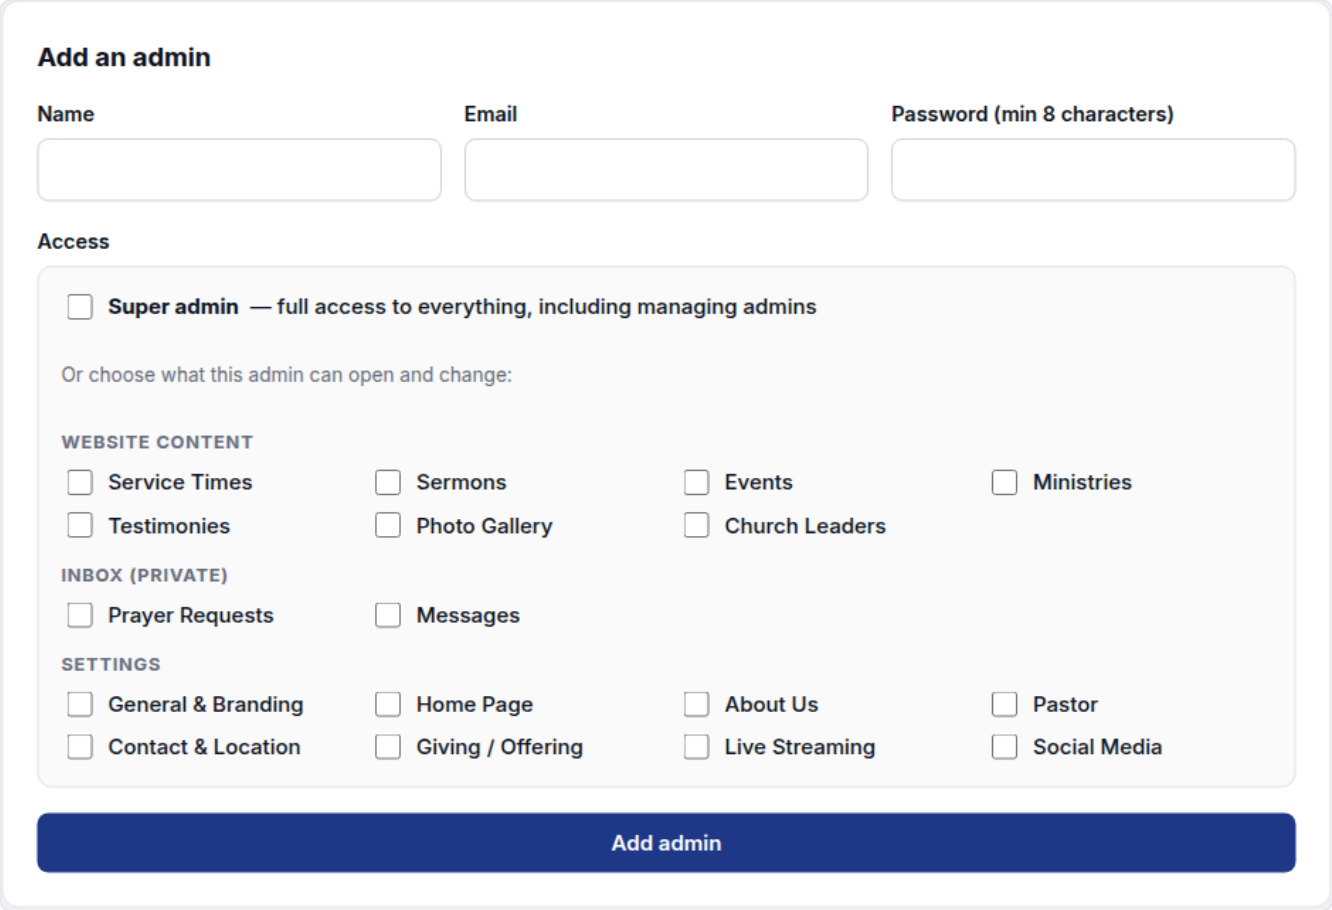

- **Super admin** – can do everything, and is the only one who can add, edit or remove admins and decide what each admin can access.
- **Limited admin** – sees and changes only the sections the super admin ticked for them (for example only Photo Gallery and Live Streaming). Everything else is hidden from their menu and blocked.

Adding an admin (super admin only)

1. Open **Admins & Password**.
2. Under **Add an admin**, type their name, email and a password (at least 8 characters).
3. Tick **Super admin** for full access, *or* tick only the sections they may use.
4. Click **Add admin**, then give them their email and password privately.

Click **Edit access** next to an admin to change their access or set a new password, or **Remove** to delete their account. Changes apply immediately.

Limited admins see **My Account** instead, where they can change their own password.

Adding an admin and choosing their access

> Give Prayer Requests and Messages access only to people who should read private information.

11. Login safety rules

To protect the church's information, the admin panel asks for the password again when an admin:

- opens the public website or goes to another website,
- closes the tab or browser,
- opens the admin panel in a new tab,
- is inactive for 30 minutes, or
- clicks **Log out**.

Moving between admin pages, saving and refreshing do not log you out. To look at the website while working, use the website on another device or simply log in again afterwards.

12. Good to know & troubleshooting

Situation	What to do
The website takes about a minute to open	Normal on the free plan: after 15 minutes without visitors the site "sleeps". The first visit wakes it up (wait up to one minute); after that it is fast.
Someone cannot open the site	Check the address is exactly **kamayagi-church-of-god.onrender.com** (no "www", no extra characters). Ask them to wait one minute or refresh.
I am asked to log in again	This is the safety feature in section 11. Just log in again.
I forgot my password	Ask the super admin to set a new one with **Edit access**.
I can't see a section in the menu	You have not been given access. Ask the super admin.
A testimony doesn't show on the website	It must be approved (section 6).
The live video doesn't show	Check the live link is saved under Settings → Live Streaming and that the video is public on YouTube/Facebook.

> Keep the super admin email and password in a safe place. For any help or new features, contact the developer.
